Date : 25 September 2026

Statement of Compliance

Part Number : 15365808

Part Description : 8 Way DCS-2 Female Unsealed Connector Blue

Applicable Environmental Specification

RoHS : Compliant

REACH : Compliant

ELV : Compliant

Aldo Gomez

Executive Director, Sustainability and EHS

Disclaimer

Just as you rely upon Aptiv to provide information on the materials, parts, and subcomponents we supply you, Aptiv relies upon its suppliers in gathering this information. The accuracy and completeness of our information depends upon the reporting of our suppliers, and the many cascading tiers of part and material manufacturers that ultimately feed the vehicle industry at large. Aptiv is obligating its suppliers to provide complete and accurate data, and Aptiv has gathered and treated the information with due care and reasonable diligence. Aptiv has implemented a continuous process for gathering information concerning our wide array of products, as necessary, to assist our suppliers and customers in complying with their obligations.

To the best of Aptiv's knowledge, based on information provided by its supply chain and in accordance with the Automotive Industry Guideline (https://www.acea.auto), the substances and preparations present in the supplied articles are integral to the function of the articles and are not intended to be released under normal use. Accordingly, the articles are generally not subject to REACH registration requirements relating to the intended release of substances. However, the articles may remain subject to other applicable obligations under REACH, including, but not limited to, SVHC notification and communication requirements and Annex XVII restrictions. This declaration reflects the status of the product(s) identified herein as of the date of issue and is provided solely for the purpose of assessing compliance with applicable environmental and substance regulations. It is not intended to constitute a formal declaration, guarantee, or certification of compliance with REACH, ELV Directive 2000/53/EC, or RoHS Directive (EU) 2015/863.

In addition, Aptiv will rely on the substances of concern data reporting process via the International Materials Data System (IMDS) and the Global Automotive Declarable Substances List (GADSL, www.gadsl.org) to identify and notify you of the substances of very high concern (SVHC) contained in the articles supplied to you.
